

RackView LCD Panel

Rack Mount LCD Display Panel

Installation and Operation Manual

ROSE.COM

LIMITED WARRANTY

Rose Electronics® warrants the RackView LCD Display Panel to be in good working order for one year from the date of purchase from Rose Electronics or an authorized dealer. Should this product fail to be in good working order at any time during this one-year warranty period, Rose Electronics will, at its option, repair or replace the Unit as set forth below. Repair parts and replacement units will be either reconditioned or new. All replaced parts become the property of Rose Electronics. This limited warranty does not include service to repair damage to the Unit resulting from accident, disaster, abuse, or unauthorized modification of the Unit, including static discharge and power surges.

Limited Warranty service may be obtained by delivering this unit during the one-year warranty period to Rose Electronics or an authorized repair center providing a proof of purchase date. If this Unit is delivered by mail, you agree to insure the Unit or assume the risk of loss or damage in transit, to prepay shipping charges to the warranty service location, and to use the original shipping container or its equivalent. You must call for a return authorization number first. Under no circumstances will a unit be accepted without a return authorization number. Contact an authorized repair center or Rose Electronics for further information.

ALL EXPRESS AND IMPLIED WARRANTIES FOR THIS PRODUCT INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO A PERIOD OF ONE YEAR FROM THE DATE OF PURCHASE, AND NO WARRANTIES, WHETHER EXPRESS OR IMPLIED, WILL APPLY AFTER THIS PERIOD. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

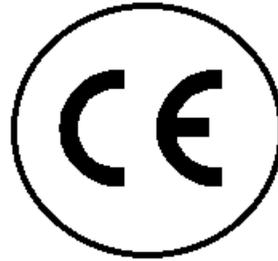

IF THIS PRODUCT IS NOT IN GOOD WORKING ORDER AS WARRANTIED ABOVE, YOUR SOLE REMEDY SHALL BE REPLACEMENT OR REPAIR AS PROVIDED ABOVE. IN NO EVENT WILL ROSE ELECTRONICS BE LIABLE TO YOU FOR ANY DAMAGES INCLUDING ANY LOST PROFITS, LOST SAVINGS OR OTHER INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OF OR THE INABILITY TO USE SUCH PRODUCT, EVEN IF ROSE ELECTRONICS OR AN AUTHORIZED DEALER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY OTHER PARTY.

SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES FOR CONSUMER PRODUCTS, SO THE ABOVE MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH MAY VARY FROM STATE TO STATE.

DECLARATIONS OF CONFORMITY

This is to certify that, when installed and used according to the instructions in this manual, the units listed and described here are shielded against the generation of radio interferences in accordance with the application of Council Directives 2014/30/EU and 2014/30/EU, as well as these standards:

- EN 55022: 2010/AC:2011 (Class B)
- EN 55024:2010 + A1:2015

This equipment has been found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

The manufacturer complies with the EU Directive 2012/19/EU on the prevention of waste electrical and electronic equipment (WEEE). The device labels carry a respective marking.

These devices comply with Directive 2011/65/EU of the European Parliament and of the council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2, RoHS II). The device labels carry a respective marking.

INTRODUCTION

Disclaimer

While every precaution has been taken in the preparation of this manual, the manufacturer assumes no responsibility for errors or omissions. Neither does the manufacturer assume any liability for damages resulting from the use of the information contained herein. The manufacturer reserves the right to change the specifications, functions, circuitry of the product, and manual content at any time without notice.

The manufacturer cannot accept liability for damages due to misuse of the product or other circumstances outside the manufacturer's control. The manufacturer will not be responsible for any loss, damage, or injury arising directly or indirectly from the use of this product (See limited warranty).

System Introduction

Thank you for choosing the Rose Electronics RackView LCD Display Panel. The RackView Panel is available in several different high-performance LCD display sizes. All RackView Display Panels are rack mounted and operation follows the same general procedure for each panel type.

The instructions in this manual assume a general knowledge of computer installation procedures, familiarity with cabling requirements, and some understanding video display device operation.

Features

- Rackmountable LCD display and presentation panels
- Available in 17", 19", 20", 21", 23" and 24" models with widescreen, HD, and touchscreen formats
- DVI and VGA video resolutions from 1280×1024 to 1920×1200
- The 17" and 23" 4K LCD display panels feature a DisplayPort 1.2 video interface with resolutions up to 3840×2160
- The 17" widescreen LCD panel supports 1920×1080 (1080p) and the 17" high-resolution version supports 1920×1200.
- PIP screen format is available on the 17" Widescreen, 17"FHD, 21", 24" and 4K display models
- The display OSD allows for easy adjustments of video source, color, brightness, contrast, position. The OSD is easily accessible and controlled via front panel push buttons.
- Quick and easy "One Man" rack mounting installation.

RackView LCD Panel Options

- Capacitive and/or resistive touchscreen on most displays
- HDMI with audio
- S-Video + Composite (BNC) with audio
- 3G/HD/SD-SDI broadcast grade video with audio
- DC power, 12, 24, 48V
- MIL grade or lockable connectors for video, USB and power
- Multi-Screen Control software enables PC control of multiple RackView LCD panels

Package Contents

The package contents consist of the following:

- 1 × RackView LCD display panel unit
- 1 × External power adapter
- 1 × Power cable
- 1 × Manual

Some RackView LCD panel units can include additional mounting accessories.

Additional Items Required

M6 mounting screws and cage nuts are normally provided as accessories with the rack cabinet and not with the RackView LCD panel.

Before Installation

It is very important to mount the equipment in a suitable cabinet or on a stable surface.

Make sure the mounting location has good ventilation, is out of direct sunlight, and away from sources of excessive dust, dirt, heat, water, moisture and vibration.

MODELS

RackView LCD Panel Models

The RackView LCD panel is available in 10 different models. The main difference between each of the models is the display size and video resolution capabilities. There are several options available that can differ with each model of RackView LCD panel. The options for each model are explained in the Appendix pages of this manual. The two illustrations below show the general layout of the front and back panels as applicable to all RackView LCD Panel models.

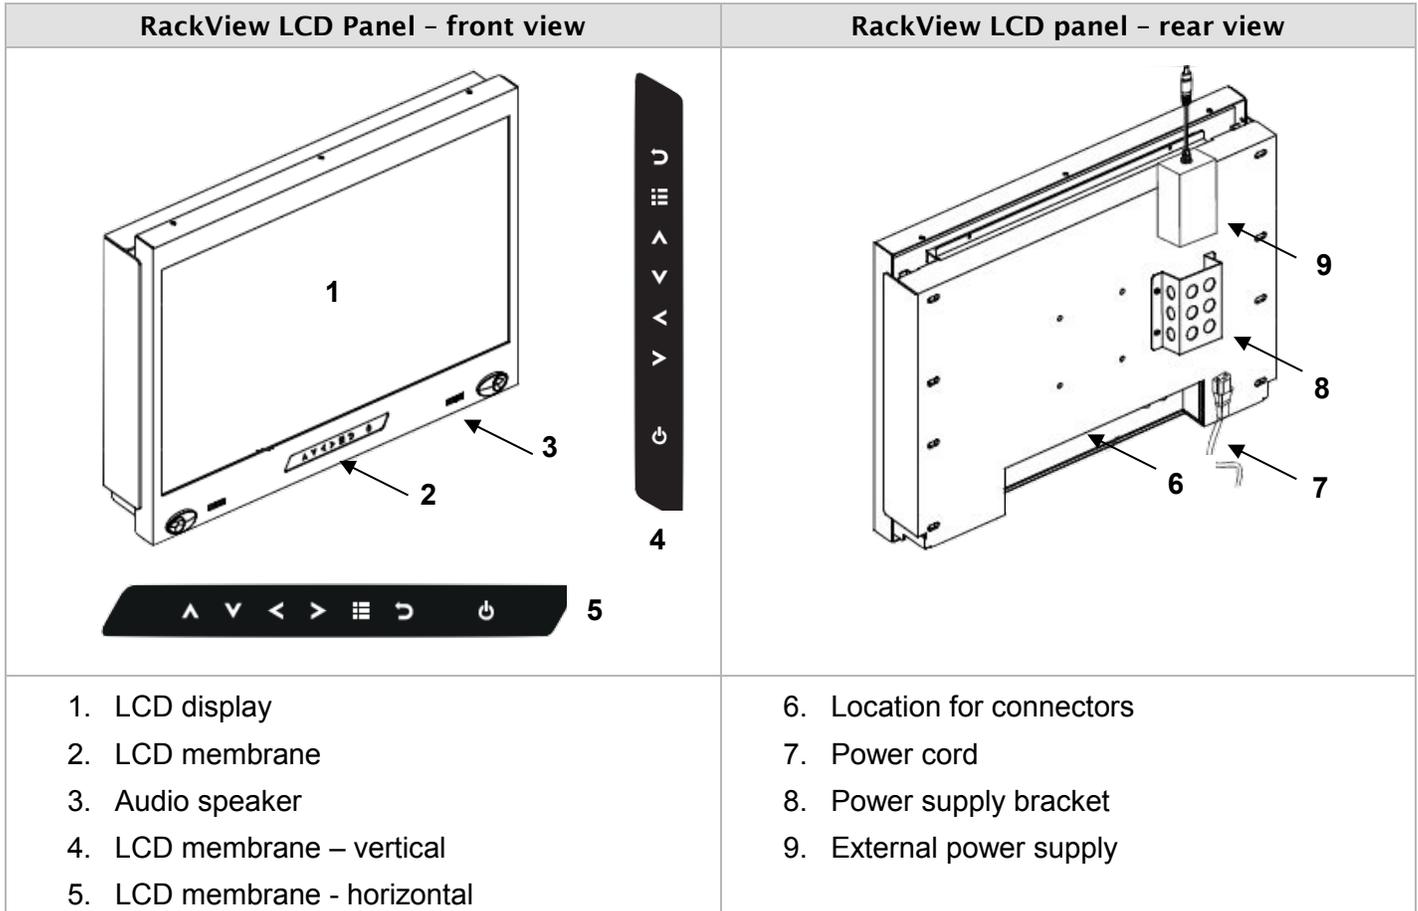

Figure 1. RackView LCD Panels – front and rear layout

Depending on the RackView LCD Panel display, the push-button membrane panel can be either horizontally mounted underneath the display, or vertically mounted to one side of the display.

RackView LCD Panel - Rear Connector Layout

The RackView LCD rear panel includes an HD15(KVM) and DVI-D connector as standard. This diagram shows the approximate positioning of the connectors on the rear panel.

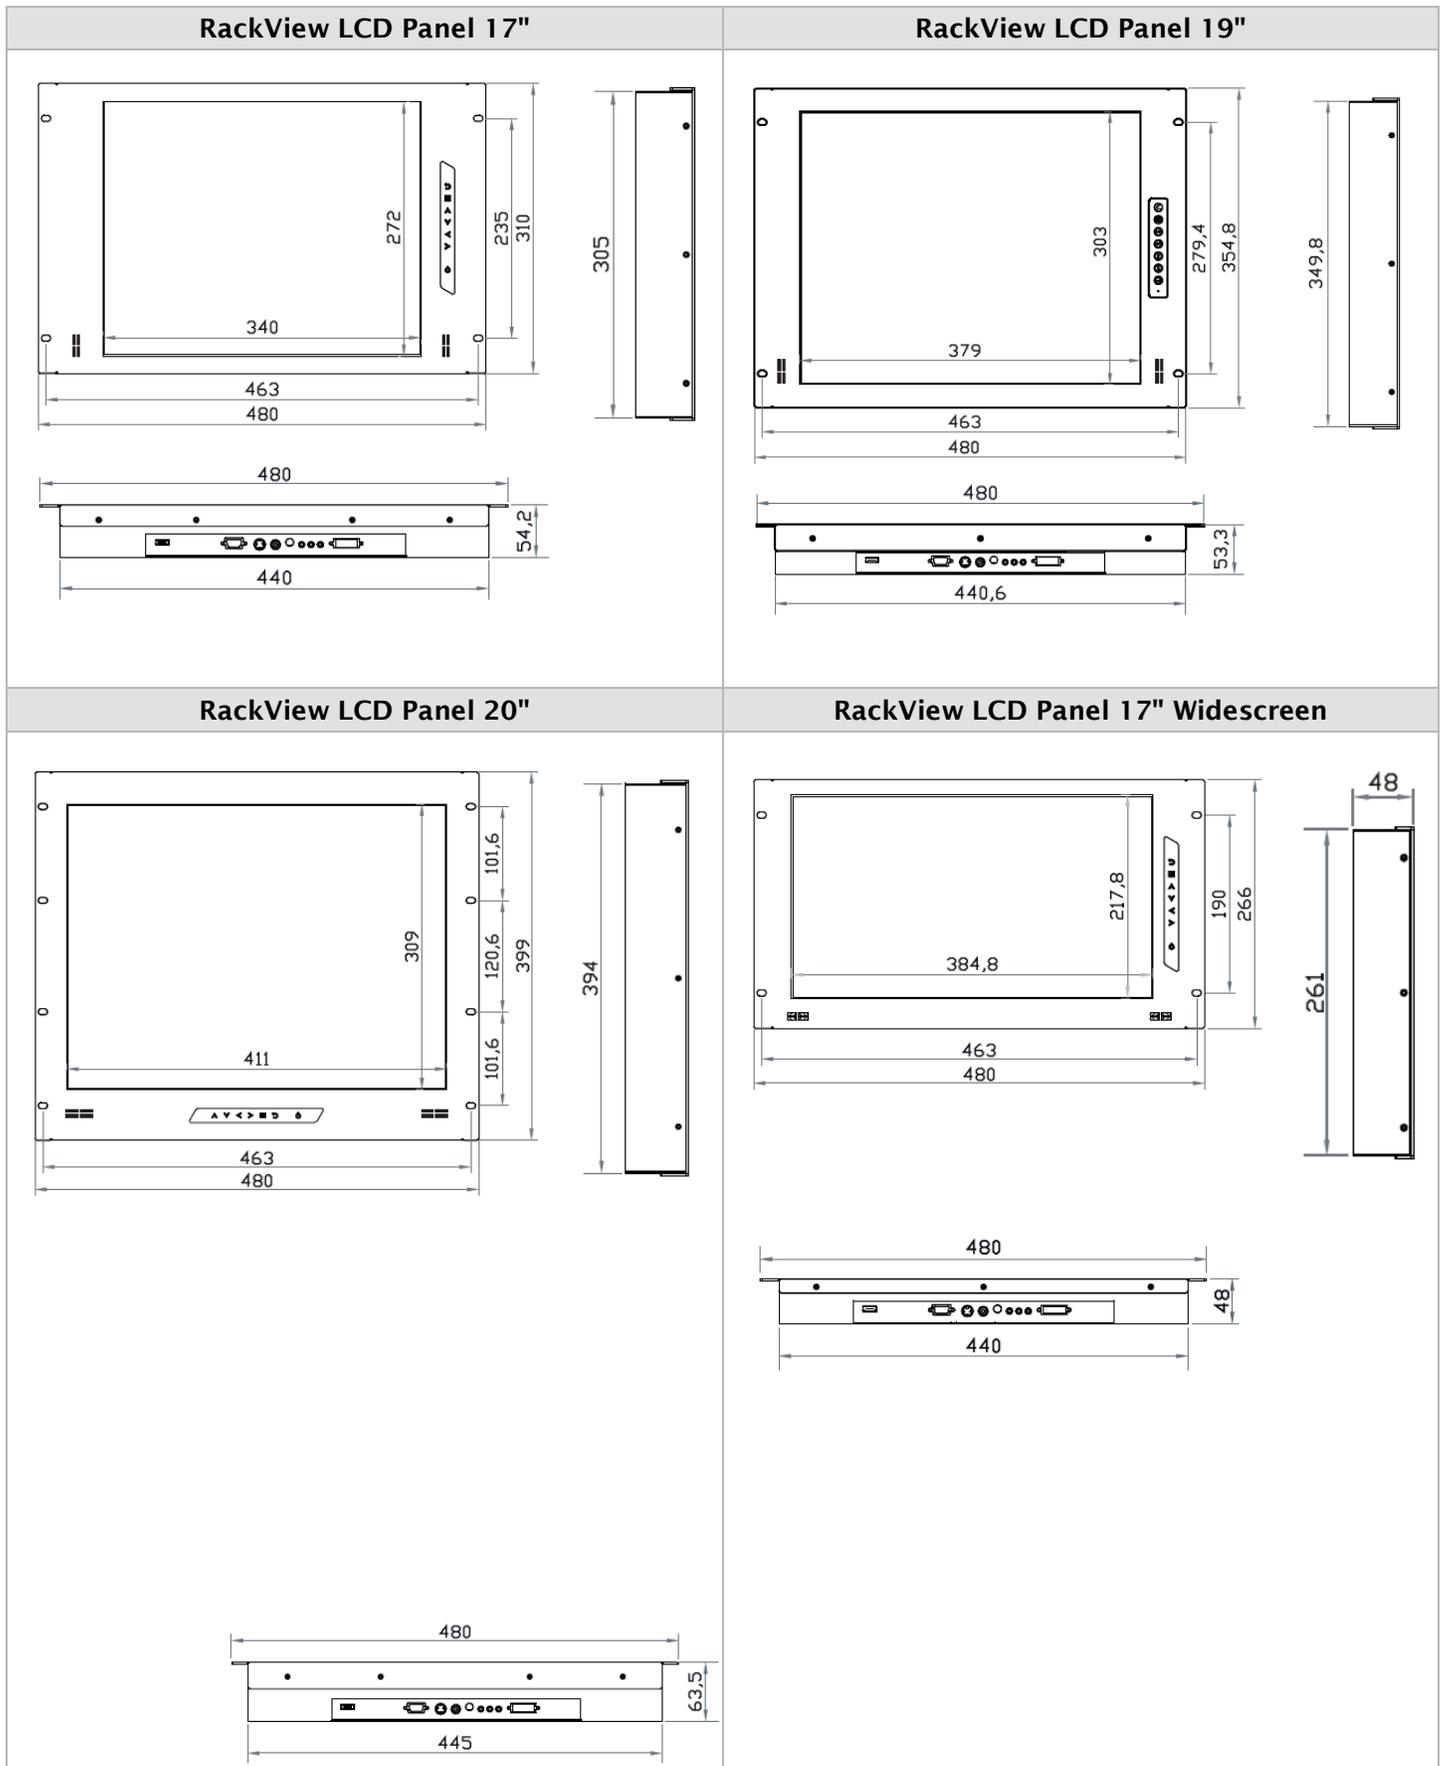

RackView LCD Panel - rear panel connector layout for the standard interface

Figure 2. RackView LCD panel - rear panel connector layout

RackView LCD Panel Chassis Dimensions

The front, side and bottom dimensions of each of the RackView LCD panels are shown in millimeters

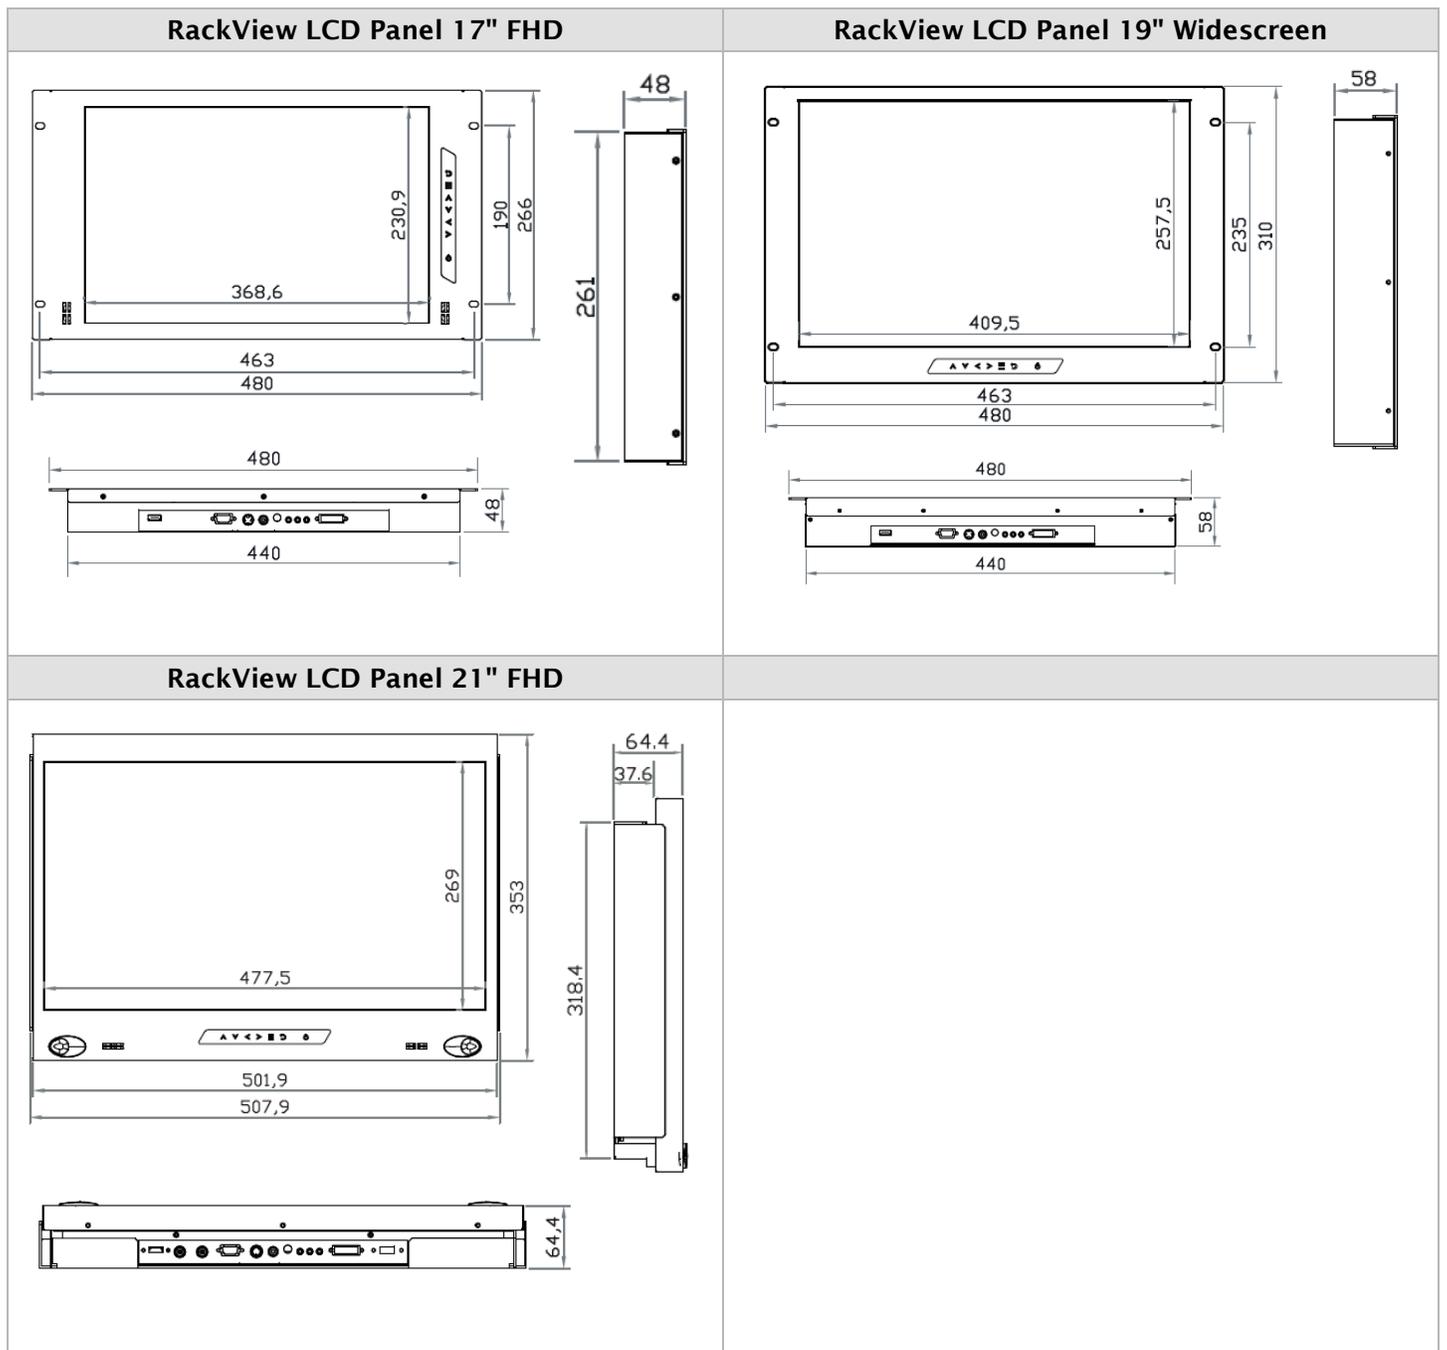

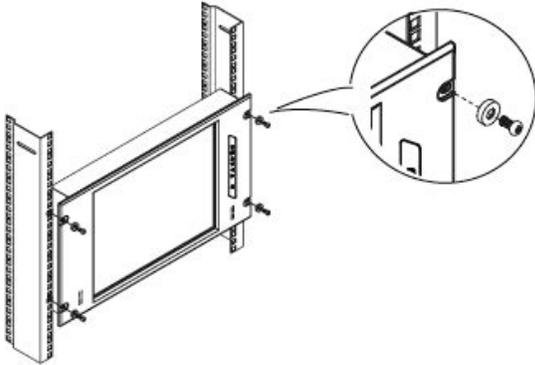

Figure 3. Chassis dimensions and LCD panel graphics

Please check Appendix C for a listing of all RackView LCD Panel dimensions and weights.

INSTALLATION AND OPERATION

Installation Steps for RackView LCD Panels - 17", 19", 17" WS, 17" FHD, 19" WS

Step 1

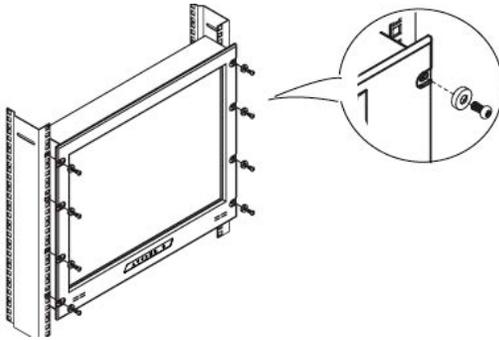

Mount the display panel with an M6 screw set.
M6 screw x 4 pcs required (Left & right side).
(M6 screw sets are not provided)

Step 2

Fix the LCD into the rack.

Installation Steps for RackView LCD Panel - 20"

Step 1

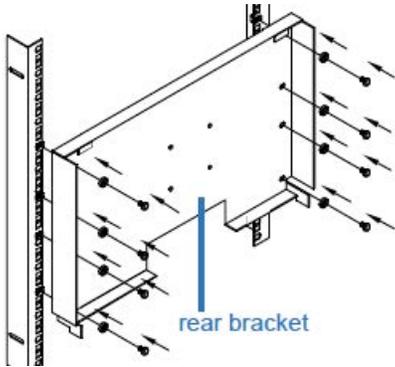

Mount the display panel with an M6 screw set.
M6 screw x 8 pcs required (Left & right side).
(M6 screw sets are not provided)

Step 2

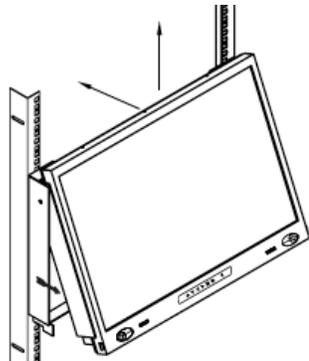

Fix the LCD into the rack.

Installation Steps for RackView LCD Panel - 21"

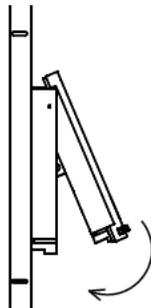

Step 1

Mount the rear bracket with an M6 screw set.
8 x M6 screw set are required.
(M6 screw sets are not provided).

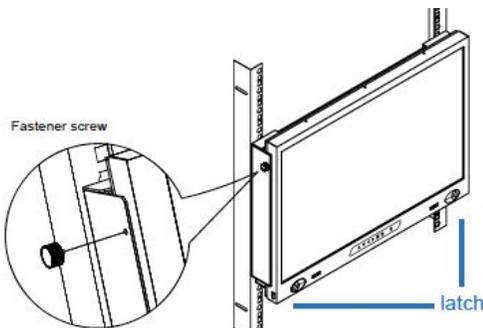

Step 2

Insert the upper part of the RackView display panel into the rear bracket.

Step 3

Push the lower part of the RackView display panel into the rear bracket.

Step 4

Fix the RackView display panel into the rear bracket with two fasteners (Left & right side).

Lock the RackView display panel by the latch (on the bottom left & right side).

Figure 4. Installation steps for mounting the RackView LCD panels

Operating the RackView LCD Panel

OSD Operation

The OSD (On-Screen Display) is activated by pressing the buttons on the front panel of the display frame. The push-button membrane control panel may be mounted horizontally or vertically on the display panel, however the OSD operation is the same for all models.

OSD Operation

Membrane Switch	Function
	Turn the monitor on or off
	Display the OSD menu Act as an Enter key to select screen setting options
	Scroll through menu options and adjust the displayed control
	Exit the OSD screen Go back to the previous on-screen sub-menu or main menu

Remark : All LED touch buttons in **WHITE** light.
The LED of **Power** touch button will flash continuously when there is no signal input.

- All the LED touch buttons will automatically turn off after 10 minutes of idle status (except the **Power**).
- Light up all membrane buttons, please press any button for 1 - 2 seconds (except the **Power**).

OSD Configuration Page

- Image:** for the brightness, contrast, color temp, red, green, and blue
- Geometry:** for the auto adjust, H position, V position, phase and clock
- Video:** for the colour, tint, sharpness, noise reduction, DCDI and TV Setup
- Audio:** for volume, bass, treble, balance, A/VL and mute
- Misc:** for the language, OSD position, graphic mode, ratio, reset and timer

PRODUCT SAFETY

Safety

The RackView LCD Panel, like all electronic equipment, should be used with care. To protect yourself from possible injury and to minimize the risk of damage to the Unit, read and follow these safety instructions.

- Follow all instructions and warnings marked on this Unit.
- Except where explained in this manual, do not attempt to service this Unit yourself.
- Do not use this Unit near water.
- Assure that the placement of this Unit is on a stable surface.
- Provide proper ventilation and air circulation.
- Keep connection cables clear of obstructions that might cause damage to them.
- Use only power cords, power adapter and connection cables designed for this Unit.
- Keep objects that might damage this Unit and liquids that may spill, clear from this Unit. Liquids and foreign objects might come in contact with voltage points that could create a risk of fire or electrical shock.
- Do not use liquid or aerosol cleaners to clean this Unit. Always unplug this Unit from the power source before cleaning.

Remove power from the unit and refer servicing to a qualified service center if any of the following conditions occur:

- The connection cables are damaged or frayed.
- The Unit has been exposed to any liquids.
- The Unit does not operate normally when all operating instructions have been followed.
- The Unit has been dropped or the case has been damaged.
- The Unit exhibits a distinct change in performance, indicating a need for service.

SERVICE AND MAINTENANCE

Maintenance and Repair

This Unit does not contain any internal user-serviceable parts. In the event a Unit needs repair or maintenance, you must first obtain a Return Authorization (RA) number from Rose Electronics or an authorized repair center. This Return Authorization number must appear on the outside of the shipping container.

See Limited Warranty for more information.

When returning a Unit, it should be double-packed in the original container or equivalent, insured and shipped to:

Rose Electronics

Attn: RA _____

10707 Stancliff Road

Houston, Texas 77099 USA

Technical Support

If you are experiencing problems, or need assistance installing your product, consult the appropriate section of this manual. If, however, you require additional information or assistance, please contact the Rose Electronics Technical Support Department at:

Phone: (281) 933-7673

E-mail: TechSupport@rose.com

Web: www.rose.com

Technical Support hours are from: 8:00 am to 6:00 pm CST (USA), Monday through Friday.

Please report any malfunctions in the operation of this Unit or any discrepancies in this manual to the Rose Electronics Technical Support Department.

Appendix D – Touchscreen Options

RackView LCD Panel with Touchscreen

The RackView LCD Panels can be ordered with optional touchscreen support. In most cases, the touchscreen can be either Resistive or Capacitive type, however, the RackView 20" and RackView 17" DWS Widescreen are only available with resistive type touchscreen.

The RackView Touchscreen option includes a 6ft (2.0m) USB cable and a CD including operating instructions.

RackView Touchscreen Options

Features	Resistive Touchscreen	Capacitive Touchscreen
Display Size	All Models	All Models except 17" DWS and 20"
Technology	5-Wire Resistive	Capacitive
Touch Point	Single	Single
Method	Stylus or Finger	Finger
Activation Force	≤ 50g / Stylus=R0.8	≤ 50g
Durability	10 ~ 35 million touches	300 million touches
Response Time	15ms	20ms
Optical Transmittance	80% ± 3%	87% ~ 93% ± 2%
Surface Hardness	3H	9H
Haze	8% ± 3%	7%
Connector	USB Type A	USB Type A
Compatibility	Windows 7 / XP / Vista, Linux	Windows 7 / XP / Vista, Linux
Glass (17")	Resistive: 17" - 1.4 ±0.2 mm	
Glass (17")	Capacitive: 17" - 2.8mm±10	
Glass (17" DWS Widescreen)	Resistive: 17" DWS - 2.2 ±0.2 mm	
Glass (17" FHD)	Resistive: 17" FHD - 2.2 ±0.2 mm	
Glass (17" FHD)	Capacitive: 17" FHD - 2.8mm±10	
Glass (19")	Resistive: 19" - 3.2 ±0.2 mm	
Glass (19")	Capacitive: 19" - 2.8mm±10	
Glass (19" Widescreen)	Resistive: 19" Widescreen - 3.2 ±0.2 mm	
Glass (19" Widescreen)	Capacitive: 19" Widescreen - 2.8mm±10	
Glass (20")	Resistive: 3.2 ±0.2 mm	
Glass (21")	Resistive: 21" - 3.2 ±0.2 mm	
Glass (21")	Capacitive: 21" - 2.8mm±10	

Table 2. Touchscreen options

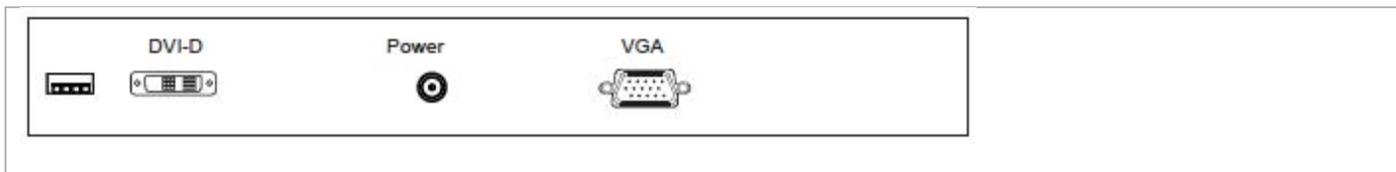

Figure 9. Schematic showing the back panel with the touchscreen option (USB-A) installed

Please follow the below steps to setup the touch screen:-

Step 1. Run the bundled CD disc

Step 2. Double click the Setup.exe

Step 3. Follow the installation instruction to finish the setup

Step 4. After installation, run the TouchKit program & the "4 point calibration"

 Please do the initial calibration after the first setup

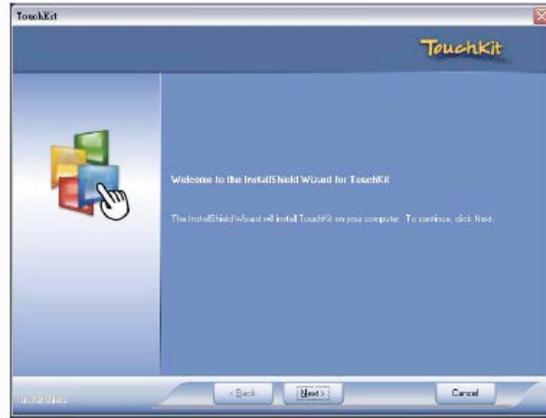

Figure 10. Touchscreen setup procedure

Appendix E – RackView LCD Panel Video Options

RackView Video Options with HDMI, S-Video/BNC and 3G/SDI Video Interface

The following video options are available with the range of RackView display panel products

The RackView 17" 4K Display Panel and the RackView 23" 4K Display Panel have DisplayPort 4K and HDMI video interface as standard. All other RackView Panels have DVI and VGA as the standard video interface.

RackView Model	DVI/S-Video(BNC)	DVI/HDMI/S-Video	DVI/HDMI/S-Video/SDI
17" LCD	Yes	Yes	Yes
17" LCD Widescreen	Yes	Yes	Yes
17" LCD High-Res	Yes	Yes	Yes
17" 4K Display	No	DisplayPort 4K/HDMI	DisplayPort 4K/SDI
19" LCD	Yes	Yes	Yes
19" LCD Widescreen	Yes	Yes	Yes
20" LCD	Yes	Yes	Yes
21" FHD Display	Yes	Yes	Yes
24" WUXGA Display	No	DisplayPort 4K/HDMI	DisplayPort 4K/HDMI/SDI
23" 4K Display	No	DVI and HDMI	DVI, HDMI and SDI

Table 3. RackView LCD panel video options

RackView LCD Panel Options – Rear Panel View

	<p>RackView LCD Panel S-Video/BNC Option Resolutions up to 1920×1200 DVI and VGA with the S-Video/BNC option</p>

	<p>RackView LCD Panel HDMI/S-Video/BNC Option Resolutions up to 1920×1200 DVI and VGA with the HDMI and S-Video/BNC option</p>
	<p>RackView LCD Panel SDI Option Resolutions up to 1920×1200 DVI, VGA, HDMI, S-Video/BNC and SDI options</p>

Figure 11. Back panel of the RackView LCD Panel showing standard and optional connectors

Notes:

1. The SDI option comes with DVD, VGA, HDMI, S-Video/BNC and SDI connectors
2. The audio jacks are for 3.5mm stereo audio in and out, and 2W + 2W speakers installed
3. All Video/Audio options must be factory fitted at the time of order

Video Formats (3G/HD/SD-SDI)

Description	Video Signal	Resolution/Refresh Rate/Signal
Input	3G-SDI In	BNC x 1 / 0.8Vp-p (75 ohm)
	3G-SDI Out	BNC x 1 / Active through, equalized & relocked
Standard Compliance	Video	SMPTE 425M / 274M / 296M / 125M ITU-R BT.656
	Audio	SMPTE 299M / 272M-C
Compatible Video Format	3G-SDI	1080p@60 / 50Hz, 4:2:2 1080p@30 / 25 / 24Hz, 4:4:4 1080i@60 / 50Hz, 4:4:4 720p@60 / 50Hz, 4:4:4
	HD-SDI	1080p@30 / 25 / 24Hz, 4:2:2 1080i@60 / 50Hz, 4:2:2 720p@60 / 50Hz, 4:2:2
	SG-SDI	480i @60Hz, 4:2:2
	ITU-R BT.656	576i @50Hz, 4:2:2
Compatible Audio Format	3G-SDI	48kHz, 16 / 20 / 24-bit, 2 Channel, Synchronized Video
	HD-SDI	48kHz, 16 / 20 / 24-bit, 2 Channel, Synchronized Video
	SG-SDI	48kHz, 16 / 20 / 24-bit, 2 Channel, Synchronized / Asynchronized Video
Max transmission distance 75 ohm coaxial cable	3G-SDI	150m at 2.97Gb/s
	HD-SDI	250m at 1.485Gb/s
	SG-SDI	480m at 270Mb/s

Table 4. 3G/HD/SD-SDI video formats

Video Formats (DVI-D and VGA)

DVI-D / VGA Input	PC Signal	Resolution/Refresh Rate
Applies to 21" model only	Applies to 21" model only	1920 x 1080 x 60Hz
Applies to 21" model only	Applies to 21" model only	1360 x 768 x 60Hz

Applies to all models	Applies to all models	1280 x 960 x 60Hz
Applies to all models	Applies to all models	1280 x 768 x 60Hz / 75Hz
Applies to all models	Applies to all models	1152 x 864 x 75Hz
Applies to all models	Applies to all models	1024 x 768 x 60Hz / 70Hz / 75Hz
Applies to all models	Applies to all models	848 x 480 x 60Hz
Applies to all models	Applies to all models	800 x 600 x 60Hz / 72Hz / 75Hz
Applies to all models	Applies to all models	720 x 400 x 70Hz
Applies to all models	Applies to all models	640 x 480 x 60Hz / 72Hz / 75Hz
Applies to all models	Applies to all models	640 x 400 x 70Hz
Applies to all models	Applies to all models	640 x 350 x 70Hz
HDMI Input	PC Signal	Resolution/Refresh Rate and notes
Applies to 17" DWS, 17" FHD and 21" model only		1080p, 50 / 60Hz
Applies to all models	Applies to all models	720p, 50 / 60Hz
Applies to all models	Applies to all models	480p, 60 Hz
Applies to all models	Applies to all models	576p, 50 Hz
	Audio Signal	2 channel linear PCM (32 / 44.1/48 KHz)
	Speaker	Dual stereo speaker, 2x2W

Table 5. DVI-D and VGA video formats

Appendix F – Multi LCD Panel Display Control

Multi LCD Panel Display Control

The Multi Panel Display Controller enables up to 64 RackView LCD Display Panels to be controlled from a single PC. This is a very convenient option when the OSD and display settings need to be updated or changed on a regular basis.

The Multi Panel Display Controller is a control card which is mounted inside each RackView LCD panel. This control card is configured with DVI-D, VGA, HDMI, S-Video/BNC and audio connectors.

It also has 2-dip switches, 2 RJ45 CATx ports (In/Out) and a DB9 (RS-232) serial port for direct connection to a notebook or PC up to 15ft (4.5 meters). The RackView LCD panels are then connected using CATx cable and daisy-chained up to a maximum of 3,300ft (1,000m). Each link should be no longer than 1,000ft (300m)

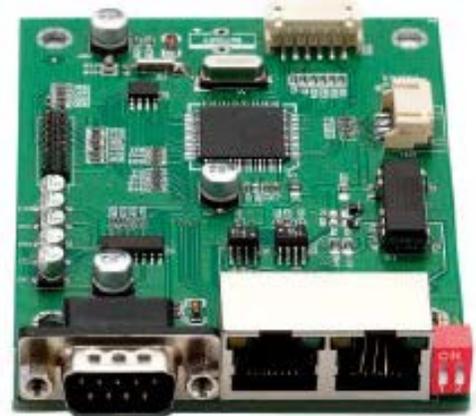

Figure 12. Multi Display Controller

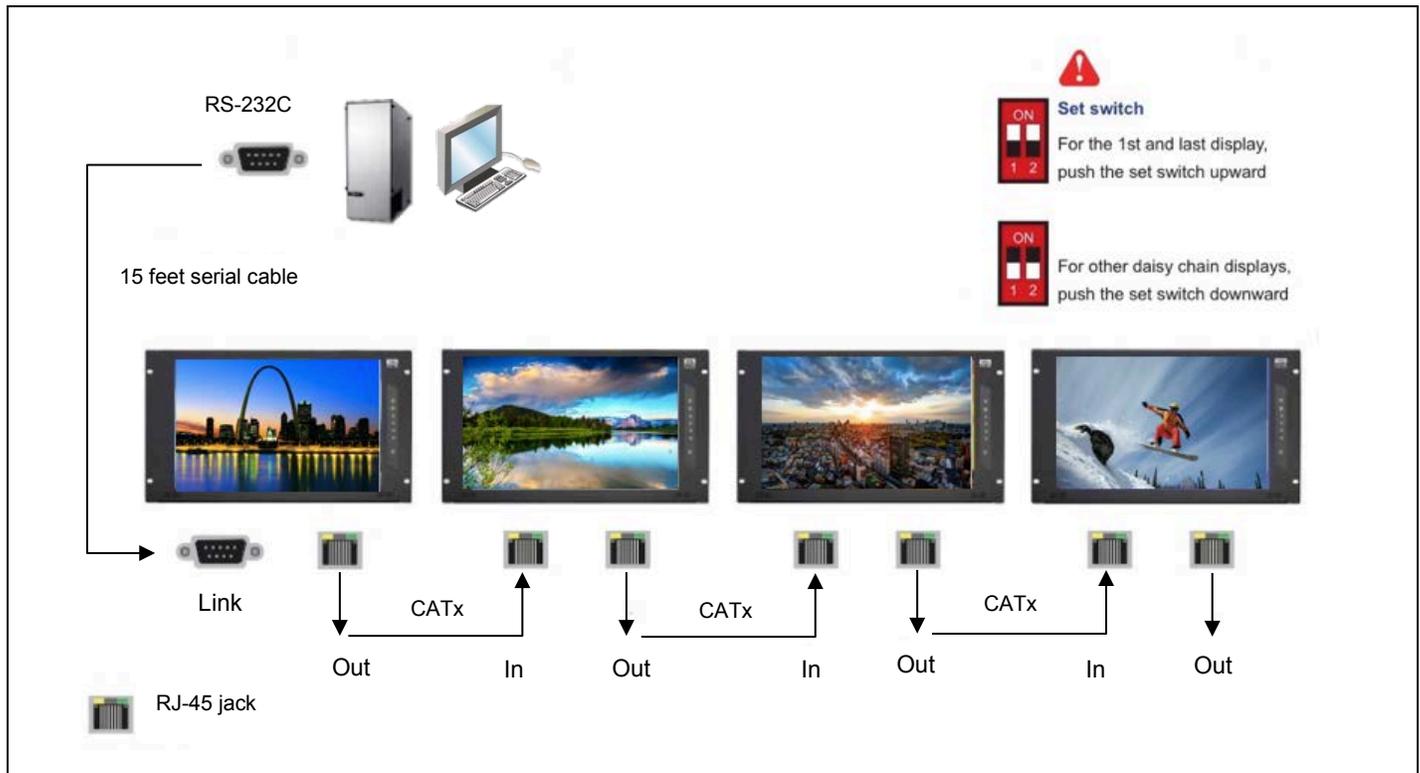

Figure 13. Multi Display Controller – Installed System

Appendix G – RackView DC Power Options

RackView DC Power

The RackView LCD Panels can be ordered with optional DC power input as specified in the table below. Select the DC voltage required, then add the voltage to the RackView part number as /nnnDC. For example, adding 48VDC to a RackView 17" would result in **RVR-LCDA17/DVI/Kn/48DC** part number.

Figure 14. RackView with DC power connector fitted

Model	12V	24V	48V
Input rating			
Input voltage:	12-Volt	24-Volt	48-Volt
Input range:	9 ~ 18V	18 ~ 36V	36 ~ 75V
Input current			
- No load	50 mA	50 mA	50 mA
- Full load	4950 mA	2450 mA	1220 mA
Output rating			
Output voltage:	12-Volt	12-Volt	12-Volt
Output current:	4.16A	4.16A	4.16A
Efficiency	84%	85%	85%

Figure 15. RackView DC power options

The DC power option excludes the AC power adapter and power cord

Appendix H – RackView MIL Type and Lockable Connectors

MIL Type and Lockable Connectors

MIL and Lockable type connectors are available for integration with the RackView LCD Panel. For further information on these connectors, please contact Rose Electronics

	Input	Product	MIL Standard
MIL Type Connector	DC Power (Male)		MIL - DTL - 26482
	VGA (Male)		MIL - DTL - 26482
	Input	Product	Standard
Lockable Connector	DC Power (Male)		D-type 3W3
	USB
